Join Parkmobile for quick and easy parking

To start using this quick, easy and convenient system, call:

0871 288 3203

to join or activate/de-activate your parking

Visit www.parkmobile.co.uk for full details of cashless parking by mobile phone.

Scrabbling around looking for change, shoving coin after coin into parking meters, guessing how long you need to park for and dropping everything to rush back to the meter with more change...

Fortunately, there is a solution to all this hassle and it's available now in **Leeds and Otley**.

No Cash, No Stress

It's a **quick, easy and safe cashless parking** system provided by Parkmobile, Europe's largest developer of electronic parking management solutions.

It's never been easier, just **park, phone and go!** You don't need cash, all you need is your mobile phone. Simply park your car, make a short call* to activate your parking; you **don't have to predict how long** you need to park for, just make another call to end your parking transaction when you leave. You can even set up a **text alert** to remind you to deactivate your parking.

Maximum Choice & Flexibility

You can choose to pay a membership fee of £1 per month or a surcharge of 20p on top of each parking transaction. The great thing is that once you have joined Parkmobile, you can also enjoy the benefits this service has to offer at **other areas** where we operate.

* Mobile calls are charged by mobile phone provider. The charges vary according to network operator and customer contract. A typical call to activate a parking transaction should take less than 30 seconds, and less than 15 to deactivate.

Easy to Join, Instant Usage

It costs nothing to join. To start using this convenient system, first complete a **simple registration** by calling **0871 288 3203** or via **www.parkmobile.co.uk**; it only takes **a few minutes**.

All you need is:

- Your mobile number;
- Your car registration number;
- Your credit or debit card details.

Once registered, you can **start using the system instantly**. The parking attendant will verify if your parking is activated by checking your vehicle registration number.

We will also set up a **personal web page** for you where you can view your parking history, invoices, set up text alerts and receive other useful information.
