

Leeds Affordable Warmth Strategy Code of Practice Registration Form

Leeds City Council aims to assist the Government in reducing fuel poverty in vulnerable households which includes pensioners, the long term ill, the disabled, and households with children, to the lowest achievable level by 2010. In addition it seeks, to further facilitate the reduction of non-vulnerable households in fuel poverty by 2016. To that end, as part of the City's commitment to addressing fuel poverty, organisations are given an opportunity to agree to the Leeds Affordable Warmth Strategy Code of Practice. Organisations can elect to sign up to any or all elements of the Code dependent upon their operational structure.
