Leeds Local Indexes – www.leedslocalindex.net

Leeds Local Indexes consists of indexes to newspaper and journal cuttings, indexes to census material for the area and resources such as the indexes to the Quaker and Non-Conformist Registers. This database contains over 250,000 records and provides a huge resource for remote access to our collections.

Leeds Library and Information Service also subscribes to a number of **online resources**, some of which allow access to journal and newspaper articles. Please go to **www.leeds.gov.uk/onlineresources**

We also hold collections of journals to which we no longer subscribe or which have ceased publication. These are not listed here but holdings are included in the online catalogue at **www.leeds.gov.uk/catalogue**
