

Involve your family or household

- Decide how family members will stay in touch in the event of, or after and emergency.
- Agree on how you will contact each other if not at home, who will collect family members and who will check on neighbours.
- Organise an out-of-town person your family or household members can contact in case you are separated. Make a list of that persons contact details (home, mobile and work phone numbers, email) and provide them to your workplace and to your children's school.
- Agree on a place for family or household members to meet if separated.
- Make arrangements for pets to ensure they will be safe and food and water.
