

Scrutiny Statement

Independence Wellbeing and Choice Action Plan

Scrutiny Board (Adult Social Care)
11th May 2010

Introduction and Scope

Introduction

1. On 3rd of December 2008 the Executive Board received the Independence, Wellbeing and Choice report. Associated with the reports was an action plan defining targets for improvement by Adult Social Services in order to resolve the problems raised by the Commission for Social Care (CSCI) inspector. In response the Executive Board resolved that the report and associated plan be referred to Scrutiny Board (Adult Social Care) for its oversight of performance against the targets set out.
2. This matter was brought to the Adult Social Care Scrutiny Board on 10th of December 2008 for discussion. The Board recommended that the Proposals Working Group meet on a monthly basis to monitor overall progress. One representative from the Health Scrutiny Board was invited to sit on the Proposals Working Group.
3. The members of the working group were:
 - Cllr. Judith Chapman - Chair
 - Cllr. Penny Ewens
 - Cllr. Clive Fox
 - Joy Fisher (co-optee)
 - Sally Morgan (co-optee)
 - Cllr Suzie Armitage- until 21/05/2009
 - Cllr Anne Blackburn (Health) – until 21/05/2009
 - Cllr Debra Coupar – until 21/05/2009
4. The Proposals Working Group has reviewed the Independence Wellbeing and Choice Action plan at seven meetings between January 2009 and December 2009. Further investigation has also been conducted by the Adult Social Care Scrutiny Board at a number of meetings between February 2009 and February 2010.
5. The modernisation and improvement of Adult Social Care is a multi faceted long term change programme. Due consideration of evidence has taken place over a thirteen month period during which we have witnessed the development of the service resulting in the improved performance rating awarded by the Care Quality Commission for 2008/9.
6. Throughout this review we have gained an insight into the significant level of change in a number of service areas, particularly safeguarding. We have also assessed how these services should be delivered by the council and our partners.
7. We feel it is important to acknowledge the efforts made and the improvements generated by the Adult Social Services Department since the Independence Wellbeing and Choice inspection. A significant amount of financial investment has been made by Leeds City Council to support this process. We do not expect immediate results in all identified areas of improvement and recognise that some aims are long term with service transformation being undertaken over the next twelve months to two years.
8. We are very grateful to everyone who gave their time to present information to the Scrutiny Board and the Proposals Working Group.

Conclusions and Recommendations

Introduction

9. The Independence Wellbeing and Choice Action Plan which specified twenty five areas of improvement, was first presented to the Proposals Working Group in January 2009. We decided to focus on actions relevant at the time of each meeting, those in progress, those due to start in the near future and more importantly those actions that were overdue. An example of the Independent Wellbeing and Choice action plan is detailed as Appendix 1.
10. Throughout the review we have maintained a watching brief of the overall improvement in performance of Adult Social Services, measured against the action plan. Our objective was to ensure clear accountability for all target areas was maintained, to question areas where we considered insufficient progress had been made and to ensure any identifiable problems would be resolved. We considered the area of Safeguarding of particular importance and therefore determined that both the Working Group and the Adult Social Care Scrutiny Board investigated this area in greater detail.
11. Other functions contained within the action plan, under close scrutiny included the recruitment of support staff, multi agency partnership working, quality assurance measures and the process for developing a more skilled workforce.

Strengthening Strategic Partnerships

12. We were advised of the Multi agency partnership arrangements put into place in the form of the Safeguarding Adults Partnership Board and various sub groups tasked to cover the following specific areas:
 - Training and Workforce Development
 - Performance, Audit and Quality Assurance
 - Professional Practice and Development (incorporating Serious Case Review)
 - Policy, Procedures and Protocol
 - User and Carer Reference Group
 - Third Sector
13. Safeguarding vulnerable adults is a responsibility which spans wider than the remit of Adult Social Services. The main objective of the Safeguarding Adults Partnership Board is for all citizens of Leeds, irrespective of age, race, gender, culture, religion, disability or sexual orientation to live in safety and be free from abuse or fear of abuse. To achieve this the Safeguarding Board aims to develop an overarching picture of the needs of those in the community who are, or may be, vulnerable to abuse, and to use this picture to allow the Safeguarding Board to address abuse where it does occur, and prevent abuse where it is likely to occur.
14. We focused on recommendations 3 and 25 within the Independence Wellbeing and Choice action plan which specifically related to the strengthening of strategic partnerships.

Recommendation 3: The Council and its Partners should agree and implement

Conclusions and Recommendations

improved procedures ensuring that these:

- o Set out specific and monitorable expectations on staff from all agencies.
- o Implement a system of compliance monitoring processes that ensure consistent practice.

Recommendation 25: The Council and its partners should strengthen governance arrangements so that elected members and relevant officers in partner organizations have a clear understanding of the performance of adult safeguarding.

15. We were advised that multi agency procedures produced by the Safeguarding Board were fully implemented in April 2009 and are subject to regular review by the sub groups. We were further reassured by the early involvement of the Corporate Governance and Audit Committee who had the opportunity to analyse the multi-agency arrangements implemented and provided feedback specifically to the governance arrangements proposed.
16. We were also keen to identify what progress had been made with regard to recommendation 8 of the Independence Wellbeing and Choice action plan (that the Safeguarding Board should strengthen its leadership role and processes for informing and reporting practice issues to elected members). The Safeguarding Board has undertaken to produce an annual report which will be presented each year to the Adult Social Care Scrutiny Board or its successor board. We also commissioned a mid year report as we were keen to identify what progress had been made since receiving the annual report in July 2009. We consider that a significant amount of progress had been

achieved in the six month period and therefore we recommend that a half yearly report is brought to the Scrutiny Board during 2010/11 and 2011/12 as significant transformational progress is still anticipated.

Recommendation 1 – That the Chairperson of the Safeguarding Adults Partnership Board provides a half yearly update to the Adult Social Care Scrutiny Board or its successor Board during 2010/11 and 2011/12

17. The first meeting of the revised Safeguarding Adults Partnership Board took place in February 2009. We expressed our disappointment that two very important partners were unable to attend the first meeting of the Safeguarding Board. We are therefore pleased to note the information provided at the Scrutiny Board meeting in February 2010 which reported subsequent attendance as good, with the appropriate level of seniority at the meetings.
18. We sought clarification regarding the recruitment of an Independent Chair for the Safeguarding Board. We were advised that the Deputy Director (Strategic Commissioning), of Leeds City Council would chair the board until fully galvanised and operational and until a chairperson with sufficient experience could be found to continue the process successfully. We were advised in February 2010 that the process of recruiting a high calibre independent chair was still ongoing.
19. We welcome the significant increase in available staffing to support the work of the Safeguarding Adults Partnership

Conclusions and Recommendations

Board and consider that the recruitment of a Head of Safeguarding and three Independent Safeguarding and Risk managers a prudent step to co-ordinating and regulating practice across the partnerships.

20. Progress in the area of Safeguarding was fully recognised in the more recent Care Quality Commission report which stated that “progress in relation to the Independence, Wellbeing and Choice Inspection action plan has been monitored at routine business meetings held during the year. It has made considerable progress in developing safeguarding arrangements and has undertaken both internal and external audits on the quality of safeguarding referrals and subsequent action taken. Embedding those arrangements is a key area for 2009/10.” The performance rating for the area of maintaining personal dignity and respect for 2008/9 is adequate compared to the poor rating received in 2007/8.

Quality Assurance and Minimum Standards of Practice.

21. We wanted to identify what measures are being put into place to strengthen frontline quality assurance measures and ensure minimum standards of practice. With a particular focus on the following recommendations resulting from the Independence Wellbeing and Choice Inspection:

Recommendation 2: The Council should strengthen frontline quality assurance arrangements to ensure that minimum standards of practice and recording are

implemented routinely in responding to adults safeguarding alerts.

Recommendation 6: The Adult Safeguarding Board should prioritise the development of a quality assurance sub-group.

Recommendation 7: The Adult Safeguarding Board should agree an adult safeguarding serious case review process and mechanisms for sharing performance issues and learning with partner agencies.

Recommendation 11: The Council should ensure that Departmental standards in relation to the timeliness and quality of reviews are met.

22. We have established that a Performance, Audit and Quality Assurance sub group has been created who will oversee the development and establishment of good practice and quality assurances processes. We welcome investment in the recruitment of a Senior Quality Assurance Officer for Safeguarding and Risk which is a new post to fully support this process.
23. One of our main concerns over the period of this review was the progress of the Professional Practice and Development in conducting its second serious case review. We were advised initially that two cases would be completed by May 2009. We were advised in July 2009 of the difficulties being experienced gathering evidence from an organisation. We were further concerned that there are no sanctions to enforce the speedy delivery of required evidence.
24. We were advised in September 2009 that the 2nd case review was still in progress due to be completed in October. It was confirmed to us that the

Conclusions and Recommendations

case review had eventually been completed in December 2009. We believe that serious case reviews are a valuable tool to identifying potential areas of risk, which is fundamental knowledge when assessing individual care packages. We consider the delays demonstrates an area of ineffective partnership working and feel that all partnership organisations involved in the Safeguarding Board should commit to providing evidence in a timely manner without frustrating the process or delaying learning for practitioners.

Recommendation 2 – That the Director of Adult Social Services ensures partnership organisations provide an undertaking to provide evidence for serious case reviews within a reasonable amount of time to be defined by the Safeguarding Adults Partnership Board.

25. We were pleased to note that Dr Margaret Flynn, a specialist in the field of Adult Safeguarding, had been employed to undertake an analysis of a sample of safeguarding case files with the aim of establishing a snapshot of current practice. As the independent chair of Lancashire Safeguarding Adults Strategic Partnership Board and an Advisory Group Member for the Department of Health Consultation on the Review of 'No Secrets' Guidance we were reassured by her capacity to add value and foresight to the process. We were further advised that Dr Flynn was involved in the development of processes to be used to independently monitor and quality assure frontline practice in relation to all aspects of safeguarding activity.

26. We support the recruitment of ten senior practitioners within the Adult Social Care structure whose responsibility is in part to provide an overview to managers of the conduct and quality of individual casework, thereby supporting the quality assurance process.

27. Dr Flynn kindly agreed to answer our questions regarding the safeguarding case file audit conducted by her team in November 2008. She highlighted the concerns raised in her report and encouragingly explained to us that the potential for improvement within Adult Social Care is promising.

28. Dr Flynn reported a number of recommendations in March 2009 as a result of the audit undertaken, which we fully support:

- The Safeguarding Board should review its thresholds for intervening in cases referred as adult abuse.
- The Safeguarding Board should review and agree its expectations of its member agencies for collaborating in safeguarding work.
- The Safeguarding Board should ensure that staff understand their role and expectations of their performance in safeguarding work.
- The Safeguarding Board should institute regular auditing of a sample of cases.
- The Department should undertake a regular audit of its case files to ensure compliance with the multi-agency and its own internal procedures and to enhance its understanding of the changing nature of the work.
- The Department should clarify the role and expectations of its

Conclusions and Recommendations

contracts section in safeguarding matters.

29. During our discussion with Dr Flynn we expressed concern that case information was not held in one central place, with part being held on computer and the remaining information held in a paper based filing system. The Director of Adult Social Care acknowledged a need to look at the way data is stored and we were advised that data should be readily available in one place. This may result in updating or replacing the current computer system.
30. It was pleasing to note that a revised supervision policy has been introduced which places a requirement on managers to regularly supervise the work of staff against key standards of practice in safeguarding work and risk management. In addition a checklist has been introduced into working practices which acts as an aide memoir, ensuring that key requirements of the safeguarding procedures and standards are met.
31. The actual long term impact of the performance improvement and quality assurance mechanisms have yet to be established by the Adult Social Care Scrutiny Board. We hope this information will be available at the beginning of the 2010/11 municipal year when the next performance review is scheduled.

Workforce Development

32. Multi Agency workforce development has been a fundamental area, detailed extensively within the Independence

Wellbeing and Choice action plan. This has included the development of a multi agency training strategy and a set of agreed minimum competencies which the safeguarding workforce are required to attain. Over the period of the review a number of delays in delivery have been reported with notable deadline extensions being made. We fully appreciate however that this objective was a massive challenge and that delivery has been quite an achievement considering that training has been provided to over 1025 individuals.

33. The twelve month programme of training has been delivered to all relevant staff and partnership organisations with priority given to front line teams. We consider that a rolling programme of training should continue to ensure that staff obtaining employment with Leeds City Council or partnership organisations are effectively trained in the area of Safeguarding.
34. As a Scrutiny Board we were provided with an overview of Safeguarding. It helped us to identify a number of important factors such as who is a vulnerable adult, what is abuse, types of abuse, where does it happen, how Leeds City Council responds to a complaint and what to do if a safeguarding issue is identified. We feel that all elected members should have this knowledge in order to help the residents of Leeds and consider that this information should form part of any newly elected member's induction programme.

Recommendation 3 – That the Head Scrutiny and Member Development ensures the provision of adult safeguarding training to all newly elected members as part of their induction programme.

Conclusions and Recommendations

Progress with Other Areas in the Action Plan.

35. We were disappointed with the progress in one particular area of joint commissioning. Action 20.5 of the Independence Wellbeing and Choice action plan refers to identifying options which will maximise effective joint working to best meet the needs of people and deliver outcomes. This specifically requires the review of systems and infrastructure to support the joint working of Adult Social Service and NHS Leeds which should have been achieved by July 2009. This exercise would be utilised to identify gaps in service and inform commissioning priorities. We appreciate that there have been ongoing difficulties due to major changes within NHS organisational structures but hope to see significant progress when the Adult Social Care Scrutiny Board next considers the objective at the beginning of the 2010/11 municipal year.
36. The Adult Social Care Scrutiny Board has conducted a detailed inquiry into the provision of Self Directed Support and Personal Budgets. The delivery of outcome focused care planning and individualised assessments formed an element of the Independence Wellbeing and Choice action plan. The Scrutiny Board made nine recommendations for improvement. We acknowledge that good progress had been made and we are particularly pleased that the Adult Social Services Department is on track to achieve national indicator 130. This measures the number of adults, older people and carers receiving self-directed support (personal budget or a direct payment) in the year to 31st March as a percentage of clients receiving community based services and carers receiving carer's specific services aged 18 and over. The Department of Health has stated that local authorities must have a minimum of 30% of users, who are eligible for community based support, using Self Directed Support by the 31st of March 2011
37. We were advised that raising awareness of Adult Safeguarding is an objective the Adult Social Services Department has been working hard to achieve. An ongoing campaign to reach vulnerable people using marketing and public information is being conducted.
38. Statistics presented to us stated that that for 2008/9 the number of Safeguarding referrals received would increase by more than 100% when compared with the 645 cases received in 2007/8. We feel this demonstrates some initial awareness raising success and is a very positive step forward however we were concerned about the impact this would have on current available resources and the capacity of staff to investigate the safeguarding referrals whilst maintaining service delivery in other areas.
39. Further success was reported in the Independence Wellbeing and Choice Action Plan update report for Dec 09/Jan 2010 which stipulated that safeguarding referrals are likely to increase by approx 45% overall during 2009/10 and are coming from a wider spectrum of agencies.
40. We recognise the endeavours that have been made to significantly improve the service provided by Adult Social

Conclusions and Recommendations

Services since the Independence Wellbeing and Choice inspection. The Scrutiny Board will continue to monitor progress made by the Adult Social Services Department in conjunction with the departments quarterly performance report when an update of outstanding actions and of achievements in the past quarter will be presented.

Overview

All actions are progressing well with some actions completed well in advance. It is becoming increasingly apparent that actions which are jointly owned by ASC and NHS Leeds must go through their individual governance systems which delays in completing these actions on target. Work on some actions have exceeded the original requirements.

- Service Users and Carers involvement in majority of actions has given a new dimension to the service provision.
- Different methods are being used to ensure greater and more meaningful involvement of citizens to develop Adults Safeguarding Charter for Leeds.
- Leeds has attained a rating of excellent for its involvement of people in planning services.
- File Auditing undertake so far has set a baseline with regards to quality of recording and provided a foundation for measuring quality improvement.
- Independent File Auditing has been commissioned and commenced.
- Performance and Quality Assurance systems are developed and baseline agreed to ensure all services are provided to the set standards and vigorous monitoring systems are strengthened internally and externally with other partners.
- Advocacy review has been completed and final report with recommendations was presented to the ASC Commissioning Board. A group is being established to progress these recommendations.
- Communication and Marketing Strategy is being implemented. Improved carers website and marketing has resulted in 300% increase in web hits.
- To ensure Carers Strategy is widely publicised, carers special news pages will be added to Spring edition of 'About Leeds' which will go to every household in Leeds

Risks

There are some actions which might not be completed in the set target time due to:

- Partners such as NHS - Leeds required to seek approval of procedures, system, protocols and joint policies through their own governance system.
- Participation of all parties (service users, carers, staff and other partners) to gain comprehensive and meaningful reviews.
- Whilst working to progress some actions other issues have come to light which needs to be resolved before work could be completed on some of these actions.

Amendments to the Action Plan

No amendments are requested

								Surveys and quality assurance establish baseline and targets relating to outcome measures.			Baseline and targets agreed: A strong indicator is that of the rate of change in safeguarding referrals. Target set for the year and already exceeded by 3rd quarter results. Extrapolation suggests safeguarding referrals likely to increase by approx 45% overall during 2009 / 10. There is increase across all user groups. Referrals are also increasing from wide spectrum of agencies.	
3.4	Develop a Safeguarding Adults Charter for Leeds	Partners, agencies, service users, carers and public have information that is accurate, accessible & appropriate in terms of safeguarding standards & are able to take action to shape policy and hold the partnership to account.
