Transport Policy

Dropped kerbs for wheelchair or electric scooter access

Dropped kerbs, which allow level access for wheelchair or electric scooter users, can be provided for people who are experiencing difficulties due to the height of the kerbs in their locality.

Disabled parking bays can be considered for people who are often unable to park near their homes due to local parking congestion.

For further information, please contact the Access and Mobility Officer on (0113) 2476312
