# SECTION 3: PROPOSALS FOR THE 11 HOUSING MARKET CHARACTERISTIC AREAS

## 11. OUTER WEST

- 3.5. The Outer West HMCA area is characterised by the communities of Pudsey, Farsley, Bramley, Stanningley, Armley, Farnley, and Wortley which form part of the Main Urban Area of Leeds. There are three smaller settlements, Calverley, New Farnley and Tyersal located beyond the Main Urban Area and surrounded by Green Belt. The Green Belt acts as a buffer to coalescence with the neighbouring authority of Bradford Metropolitan District Council. The Leeds Bradford Corridor runs along the A647 between the two cities. Various transport and environmental improvements have been carried out and are planned to improve the Corridor both for commuters and residents of the area. This area is included, in part, within the West Leeds Gateway Supplementary Planning Document (WLGSPD). This is an identified regeneration area in the Core Strategy and is made up of the communities of Wortley and Armley. The key aims of the WLGSPD are to tackle environmental, economic and social issues in an integrated way.

West Leeds Country Park and Green Gateways runs through Outer West HMCA from New Farnley up to Calverley and then back down into Leeds through the North HMCA. The park links countryside and urban green space to create accessible green routes through the area. It is an important asset which makes positive use of natural environment on offer from the Green Belt and the River Aire corridor.

Overall, the socio-economic profile shows that of working households in Outer West Leeds 35% earn less than £20,000 p.a. whilst 7% earn £50,000 or more. In terms of unemployment, there was an unemployment rate of 3% in 2014 (claimants of working population).

## RETAIL PROPOSALS FOR OUTER WEST

- 3.5.1 The main retail centres within Outer West are the Town Centres of Bramley, Farsley and Pudsey, which are supported by three Local Centres. The six designated centres within the Outer West area are:
- Bramley Town Centre
  - Chapeltown Road (Pudsey) Local Centre
  - Farsley Town Centre
  - Lower Wortley Local Centre
  - Pudsey Town Centre
  - Stanningley Bottom Local Centre
- 3.5.2 For each centre a review of the centre boundary and survey of current uses has been undertaken. The Council is not allocating sites for retail in these centres but has made boundary changes which may provide scope to accommodate additional retailing. The survey of uses has been used to determine the Primary Shopping Area and frontages (primary and secondary).

3.5.3 For policies and guidance referring to centre boundaries, Primary Shopping Areas and proposals within protected shopping frontages, please refer to Section 2 of this document. These policies must also be read in conjunction with the Retail and Town Centres section of the Core Strategy.

## HOUSING PROPOSALS FOR OUTER WEST

3.5.4 See Section 2, paragraphs 2.26 – 2.72 for the Housing overview which explains the context for the housing allocations in this area.

3.5.5 **Total housing target for Outer West** (set out in the Core Strategy) = 2,231 units (7% of District wide total).

### **Total number of dwellings/capacities to be allocated:**

3.5.6 The Plan Remittal required that the position on housing land supply be updated against the revised Core Strategy requirement from 1 April 2017 to 31 March 2028. Table 1 at paragraph 2.30 illustrates that there were 983 new homes completed in Outer West between 1 April 2012 and 2017 with 2,083 dwellings remaining on identified and allocated sites. A further 290 dwellings have been approved on large windfall sites, which provides a total of 2,373 dwellings. Previous UDP allocations not developed (saved UDP sites) are listed in Policy HG1 below, where applicable. Identified sites with planning permission or expired permission are listed in Annex 1. These three categories of identified sites count towards the overall target. UDP sites are shown on the Policies Map.

### **POLICY HG1: IDENTIFIED HOUSING SITES**

**Site Specific Requirements For Sites Allocated For Housing In Outer West**

3.11.9 The Site Allocations Plan housing allocations mean that should a planning application for housing on an allocated site be submitted to the Council, it is acceptable in principle by virtue of it being allocated for that use in the Local Plan. However, each planning application is judged on its individual merits and where there are specific requirements that will need to be applied, these are listed against each site below. Some planning requirements apply equally to all sites and so are not detailed for each site specifically. See Section 2, paragraphs 2.42 – 2.53 for generic technical considerations and existing planning policy.

## **GREEN SPACE PROPOSALS FOR OUTER WEST**

- 3.11.17 The Plan shows the green space sites proposed for designation within the Outer West HMCA. These are predominantly existing UDP green space sites (some updated and modified to reflect the current situation) and additional sites identified through the Open Space, Sport and Recreation Assessment (OSSRA July 2011). Existing green space located within housing or employment allocations is not identified for designation however green space provision within any housing proposal will be addressed through the planning application process and the application of Policy G4 (New Green Space Provision) of the Core Strategy. The provision of green space is also a site requirement in some cases in the housing section. Any UDP green space sites that are not shown are proposed for deletion mainly because they are no longer in an open space use or are below the 0.2ha threshold.
- 3.11.18 The Outer West area has a number of sizeable open spaces, such as, Gotts Park (35.5ha), Bramley Falls Park (34.5ha), Rodley Nature Reserve (26.9ha) Post Hill (35.6ha) as well as various smaller, more locally important parks e.g. Bramley Park (14.7ha), Stanningley Park (10.5ha), Farnley Hall Park (16.2ha), Western Flatts Park (12.8ha), Armley Park (8.9ha), Calverley Park (3.8ha) and Pudsey Park (3.3ha). There are also a number of smaller areas within the built up area, the majority of which have been protected open space for many years and allow residents of the area access to green space and opportunities for a range of recreational activities. Nevertheless, provision is still in need of improvement in terms of quantity, quality and accessibility. Surpluses and deficiencies by typology for the wards that fall completely or partially within the Outer West HMCA will be updated and monitored by the Council.
- 3.11.19 The Habitats Regulations Assessment has concluded that measures will be required regarding the provision and enhancement of green spaces within the HMCA so as to help avoid visitor pressure on the South Pennine Moors SPA/SAC. The Council will monitor these through monitoring indicator 24 of the Council's Monitoring Framework which supports preparation of the Authority Monitoring Report. This will quantify the delivery of green space and green infrastructure delivered in the area along with the amount of commuted sums collected and spent on green space projects. Moreover, for the purposes of monitoring this measure the AMR will also report on specific improvements to green spaces in this HMCA, which arise as a result of the North West Leeds Green Gateways and Country Park project.
