

# Central Library Games Group

## Safety

- Free wifi on the streets of city centre so young people can still contact family and friends if they get lost or find themselves in an un-safe situation if they have no money or phone
- Bus drivers to have training dealing with young people who are vulnerable (may not have money for the bus etc.) Bus drivers can be rude to young people
- Youth workers patrol, making sure we are safe from drunks and drug users

## Events and Activities

- Free local bands festival in Kirkgate Market aimed at young people
- Free / low cost gigs for under 18s. Half price tickets for gigs
- Junior sporting event in city centre – power lifting for example
- Free film showings on Millennium Square on summer weekends/evenings or screen bands which are performing live in city venues
- Re-launch Tuesday night club in City Centre
- More games groups
- More free events open to all, everything costs too much!

## Travel

- Busses are a lifeline to young people visiting the city centre, they have no option but to use them. Young people feel strongly about non regular service and cost
- Cost for many, is prohibitive. Young people cannot earn and if parents don't give, or cannot give money for busses then young people are stuck and cannot access the city centre. Cut weekend fares drastically for 11 to 18 year olds
- Give young people volunteering opportunities where they receive a free bus pass for however long they are volunteering (not just money back for bus fares on the day)
- Free city centre bus to underprivileged area for young people at weekends
- Free bike hire

## Physical Education

Park to go where it feels safe and welcoming. Youth work patrols. Area for young people where they wont get shouted at for making noise. Somewhere out of the way
