Changing Places in Leeds

Locations, Opening Times and Access Information

October 2017
I am really proud to say that in Leeds we are doing all we can to make our great city accessible to everyone and that we are leading the way in the provision of Changing Places.

It is hard to believe that in 2009 we had just one Changing Place in Leeds. Today I am pleased to say that number has increased to 28 registered facilities across Leeds together with a mobile Changing Place which is extensively used at outdoor events.

Changing Places are toilet facilities for people with profound and multiple disabilities. They are fitted with specialist equipment such as a hoist and changing bench. They provide sufficient space for up to two carers to support the person with a disability to use the Changing Place.

Leeds City Council is proud to contribute to the national campaign to develop a network of Changing Place facilities across the country. Locally the programme is led by Aspire Community Benefit Society on the Council’s behalf. It is wonderful to
see that independent businesses and third sector providers have also embraced the campaign by creating Changing Places within their venues or making space available for them to be developed through Council and Aiming High for Disabled Children grant funding.

Given all this development we think it is a good time to update this information booklet. I hope you will find it helpful when planning your journey in and around Leeds.

Please also remember to check for up-to-date information on each venue’s own website before travelling or on the national Changing Places website at:

The mobile High Dependency Unit Changing Place allows people with the most complex needs to access a full range of outdoor events. It is purpose built and comes fully equipped with everything that is required including a hydraulic lift.

The unit can be connected directly to mains power, water and sewerage or operated independently of these services with a generator.

The mobile HDU is available for hire by event organisers thus providing a valuable resource and increasing opportunities for the most vulnerable of our citizens to participate fully in life.

Leeds City Council’s Events Team manage bookings for the mobile HDU. They will arrange for the unit to be delivered to your event and set up ready for use.

If you are thinking about hiring the mobile HDU you should contact the Events Team as soon as possible to discuss your requirements and check availability.
