Neighbourhoods for Living Supplementary Planning Document ("NfL SPD")

Update Note June 2020

Introduction

Neighbourhoods for Living (NfL) was adopted by the Council in 2003 as Supplementary Planning Guidance (SPD) and provides guidance to developers for delivering quality housing designs. It still needs to be read in conjunction with the Unitary Development Plan (UDP) Saved Policies, adopted Core Strategy (as amended 2019), Site Allocation Plan (SAP), Aire Valley Action Plan (AVAP), Natural Resources and Waste Local Plan (NRWLP) and Neighbourhood Plans.

The 'Neighbourhoods for Living Memoranda 2015' was produced to assist in providing clarity about key current issues of design quality and encourage better working together.

SECTION 1: UPDATED SCHEDULE

The Table below provide a current status of Policies referred to in the NfL SPD as many of the UDP policies referred to within the SPD have now been superseded by the newly adopted policies. .

Column 3 of the Table "2020 Position" confirms which is the most up to date and relevant policy which should now apply.
